

# PENNSYLVANIA HEALTH CENTER FACT SHEET 2007

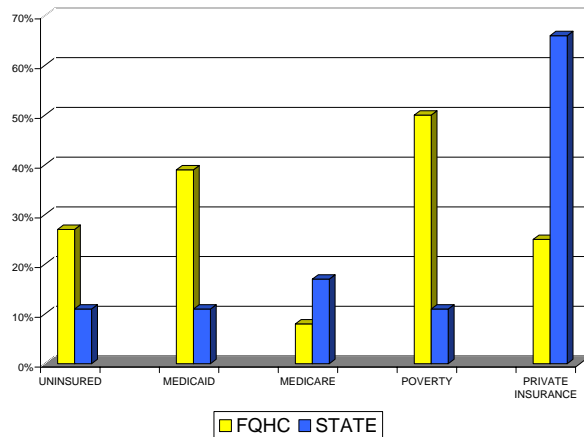

Pennsylvania Federally Qualified Health Centers are the medical home for greater than 500,000 Commonwealth residents. Services are delivered by 42 organizations (38% of which are rural) at more than 190 service delivery sites located in 39 counties. More than 2,600 FTE health center staff provide professional medical, dental and behavioral health care in these underserved areas. Health centers offer a broad range of services, and their costs of care rank among the lowest.

**Pennsylvania's health centers continue their commitment to providing high quality, affordable primary and preventive care to the Commonwealth's most vulnerable populations---- regardless of ability to pay.**
